### SUMMARY

Experienced Full Stack Web Developer expert at building comprehensive web applications, including e-commerce platforms and management systems. Proficient in technologies such as React, Angular, PHP, and Laravel having demonstrated ability to deliver projects effectively and efficiently.

### EXPERIENCE

Full Stack Web Developer - IdeauxTech Pvt.Ltd, Nagercoil Sept 2024 - Present

- Developed and maintained responsive web interfaces using HTML, CSS, JavaScript, and modern frameworks like React.
- Collaborated with backend developers to integrate APIs and ensured seamless data flow.
- Optimized UI/UX for speed, accessibility, and mobile responsiveness.
- Debugged and troubleshooted UI issues across different browsers and devices.
- Worked closely with designers to translate Figma/mockup designs into functional web pages.
- Maintained code quality, structure, and reusability using best practices.
- Managed version control using Git and collaborated through platforms like GitHub or GitLab.
- Trained and supported junior developers and interns in frontend technologies.

#### Projects

- E-commerce Platform:** Developed RESTful APIs for authentication, product/order management, payments, and user management using PHP, Laravel, and MySQL, and built the frontend using ReactJS.
- Billing System:** Developed a fast, efficient billing system with invoicing, tax calculations, and reporting.
- Hospital Management:** Designed a system for managing patients, appointments, and records with React, PHP, and MySQL.
- Hotel POS:** Built a POS system with QR scanning, bill printing, and inventory tracking to improve hotel operations.
- Intern Training:** Trained interns in frontend tech (HTML, CSS, JS, Bootstrap, React).

Front End Web Developer - Gift Web Solution, Nagercoil Dec 2022 - Sept 2024

- Designed and built user-friendly admin and seller panels using modern frontend technologies.
- Collaborated with design and backend teams for seamless API integration and authentication implementation.
- Developed static and dynamic websites with engaging UI/UX and interactive components.
- Optimized web application performance, ensured security, and followed best coding practices.

#### Projects

- Developed admin and seller panels using Angular, TypeScript, HTML, CSS, and Bootstrap for efficient product, order, and user management.
- Integrated APIs and authentication for smooth and secure frontend-backend communication.
- Built static and dynamic websites with modern UI/UX, animations, and interactive features.
- Optimized performance, enhanced security, and wrote clean, scalable code for reliable web apps.
