SKILLS

- Languages:** JavaScript, TypeScript, HTML5, CSS3, PHP, SQL
- Frameworks & Libraries:** React, Next.js, Angular, Express.js, Material UI, Bootstrap
- Databases:** MongoDB, MySQL
- Tools & Platforms:** Git, GitHub, GitLab, Figma

Education

- Bachelor of Engineering (ECE) 2018 - 2022
Stella Mary's College of Engineering,
- Nagercoil, Kanyakumari, Tamil Nadu
Percentage : 78%

Languages

- English (Working Proficiency)
- Tamil (Native Proficiency)

Certifications & Training

- Angular – Certified, Maanavan Learn Code
- React – Certified, Maanavan Learn Code
- AWS – Certified, Maanavan Learn Code
- Linux – Certified, Maanavan Learn Code
- Git & GitHub – Certified, Maanavan Learn Code
- Python Full Stack – Certified, Network System

SUMMARY

Full Stack Web Developer skilled in JavaScript, TypeScript, React, Next.js, Angular, Node.js, Express.js, MongoDB, MySQL, and PHP. Experienced in building scalable, responsive web applications with expertise in API integration, UI/UX optimization, and performance tuning. Proficient in Git-based collaboration and best coding practices with a proven track record of delivering high-quality solutions.

EXPERIENCE

Full Stack Web Developer - Gift Web Solution Pvt.Ltd

April 2024 - Aug 2025

- Built and maintained responsive web apps using HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js.
- Developed end-to-end solutions with Node.js, Express.js, MongoDB, MySQL, and PHP.
- Integrated REST APIs and optimized UI/UX for speed, accessibility, and cross-device performance.
- Converted Figma designs into pixel-perfect, user-friendly web pages.
- Ensured code quality & version control with Git/GitHub/GitLab.
- Supported and mentored junior developers to strengthen the frontend team.

Front End Web Developer - Igeet Online , Nagercoil

Jan 2023 - March 2024

- Developed an E-commerce platform with Admin and Seller panels for product, order, and user management.
- Built responsive and interactive UIs using Angular, TypeScript, Material UI, and Bootstrap.
- Implemented role-based access control and optimized workflows for sellers and administrators.
- Collaborated using GitLab for version control and team development.

Projects

- E-commerce Platform** – Developed a responsive React + Redux application with Admin & Seller panels using RBAC. Integrated OTP login, JWT authentication, Razorpay payments, and secure account recovery workflows.
- Textile Billing System** – Built a dynamic billing system in React with QR-based product scanning and GST-compliant invoicing, streamlining retail operations.
- Restaurant POS System** – Designed a multi-role POS (Waiter, Cashier, Kitchen) with QR ordering, live kitchen display, real-time order tracking, thermal billing, and analytics dashboards using React, Tailwind CSS, Node.js, and Express.js.
- Hospital Management System** – Developed modular dashboards for Admin, Doctors, and Staff using React & TypeScript. Integrated Pharmacy, Lab, Ambulance, Attendance, and appointment alerts for efficient operations.
- Matrimony Platform** – Built a React-based UI with OTP login, RBAC, and bio-data access/download features. Implemented role & time-based access control with backend in PHP & MySQL.
- Bakery Billing System** – Created a responsive dashboard with category/product management, dynamic sales reports, inventory tracking, and performance insights for daily operations.
- Static Websites** – Developed 20 + fully responsive static websites for clients across different domains, ensuring clean UI, mobile compatibility, and optimized performance.
- Internship & Team Training** – Trained interns on HTML, CSS, JavaScript, Bootstrap, React, and best practices in UI development. Guided them on API integration, modular component design, and real-world workflows
